

DIAsource Antibodies and Antigens pairing information

Parameter	Pair(s)
Aggrecan	5114616 / 5314626
Osteocalcin	5113806 / 5313806
PTH	5114906 / 5314926
25OH Vitamin D	5319706 / 50197XX
	5319716 / 50197XX
	5319726 / 50197XX
	Position-3 Abs from the market / 50195XX
AFP	5100806 / 5300806
Calcitonin	5104236 / 5304226
CEA	5103306 / 5303306
Free β-hCG	5110026 / 5310036
ACTH	5100696 / 5300696
Aldosterone	5331225 / 13026XX
	5331235 / 13026XX
Angiotensin I	5353616 / 1302619
Renin	5115306 / 5315356
	5115306 / 5315366
Insulin	5112526 / 5312506
Leptin	5122816 / 5322826
Estradiol	5306235 / 51062XX
	5306255 / 51062XX
	5306265 / 51062XX
	5306286 / 51062XX
	5306296 / 51062XX
Estriol	5306406 / 1302614
FSH	5108406 / 5308426
LH	5113146 / 5313146
hPL	5311406 / 5311426
Prolactin	5114426 / 5314426
hGH	5110806 / 5310806
IGF-1	5315806 / 5115806
IGFBP-3	5111736 / 5311726
TSH	5118806 / 5318806
	5118806 / 5318826
T4	5316406 / 1302193
T3	5316306 / 1302172

Biotinylated, fragmented and HRP conjugates of Antibodies are not included in this table. Please contact us for more information, or refer to the clone number in our catalogue.

'XX' means any number. It refers to the different formats / conjugations of pairing antigens.
